DETAILED ACTION

1. Supplement to the previous Notice of Allowance mailed on March 08, 2005, below please find claim 1 with the typographical corrections.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Lois Cartier (reg. 40,941) on April 5, 2005.

The application has been amended as follows:

Replace claim 1 with the following corrected version.

1. A memory device having a single event upset resistant circuitry, comprising:
 - a first inverter having a first input node and a first output node;
 - a second inverter having a second input node and a second output node;
 - a first transistor having a first source/drain contact coupled to the first input node and a second source/drain contact coupled to the second output node; and

a second transistor having a third source/drain contact coupled to the second input node and a fourth source/drain contact coupled to the first output node,

wherein each of the first and second transistors is programmable to provide a low resistance less than 1000 ohms and a high resistance of more than 100,000 ohms,

wherein each of the first and second transistors has a gate coupled to a gate bias voltage source, the gate bias voltage source putting the first and second transistors into a partially conductive state to provide the high resistances,

wherein the first and second transistors are the only transistors coupled to the first inverter and the second inverter to provide the single event upset resistance circuitry, and

wherein the first transistor and the second transistor each have a body contact coupled to a body bias source voltage.

Conclusion

3. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see MPEP 710.02(b)).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ly D. Pham whose telephone number is 571-272-1793. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoai Ho can be reached on 571-272-1777. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
